#ENERGIZEYOUREYES

Red Bull SPECT, the eyewear brand known for its dynamic and innovative approach, is committed to pushing the limits of design and technology in goggles and sunglasses. Rooted in Red Bull's spirit of extreme sports and high-performance, the brand delivers products that cater to the demanding needs of athletes, outdoor adventurers, and active individuals who value both performance and style.

Red Bull SPECT, die Brillenmarke mit ihrem dynamischen und innovativen Ansatz, ist bestrebt, die Grenzen von Design und Technologie bei Goggles und Sonnenbrillen neu zu definieren. Verwurzelt im Geist von Red Bull, der für Extremsport und Höchstleistung steht, entwickelt die Marke Produkte, die den hohen Ansprüchen von Athleten, Outdoor-Abenteurern und aktiven Menschen gerecht werden, die sowohl auf Leistung als auch auf Stil Wert legen.

Red Bull SPECT, la marque de lunettes connue pour son approche dynamique et innovante, s'efforce de repousser les limites du design et de la technologie pour les masques de ski et les lunettes de soleil. Ancrée dans l'esprit de Red Bull, synonyme de sports extrêmes et de haute performance, la marque propose des produits répondant aux exigences des athlètes, des aventuriers en plein air et des personnes actives qui recherchent à la fois performance et style.

I BOOST

Lenses with the I°BOOST technology provide intense contrasts, brilliant colors and razor-sharp vision.

CHROM X

CHROM°X are photochromic lenses that automatically adjust to changing light conditions, offering optimal protection and clear vision. Ideal for sports activities, they always provide the optimal tint for a comfortable viewing experience.

F SCAPE

The innovative F°SCAPE Anti-Fog technology uses tiny micro-etched channels on the lens surface to ensure that condensed water is immediately drained away and the lens does not fog up.

PC LENS

PC (polycarbonate) lenses provide maximum protection due to their exceptional impact resistance, ensuring durability and safety in various environments.

FREE D

The FREE°D technology corrects light refraction and thus prevents optical distortion.

DOUBLE LENS

Double lenses are designed to provide a fog-free vision experience by creating a barrier between the inner and outer lens, which minimizes temperature differentials and prevents condensation.

OTG

Can be worn over glasses.

RXCLIP

A customizable clip-in insert for prescription lenses is available for the ski goggles.

JAMM-08RE2

The MAGNETRON Technology from Red Bull SPECT Eyewear offers a quick and intuitive lens-changing system, perfect for athletes and outdoor enthusiasts. Using powerful magnets in the frame, the lenses can be swapped in seconds without removing gloves. This ensures quick adaptation to changing light conditions on the mountains. The collection combines high-quality, durable materials with anti-fog, scratch-resistant lenses, and 100 % UV protection, providing clear vision and maximum eye safety in any weather. With a sleek and ergonomic design, the MAGNETRON goggles fit comfortably with or without a helmet, making them an ideal choice for those who value performance and style on the slopes.

Die MAGNETRON-Technologie von Red Bull SPECT Eyewear bietet ein schnelles und intuitives Wechselsystem für Goggles, perfekt für Athleten und Outdoor-Enthusiasten. Dank starker Magnete im Rahmen lassen sich die Linsen in Sekunden austauschen, ohne die Handschuhe auszuziehen. So ist eine schnelle Anpassung an wechselnde Lichtverhältnisse am Berg möglich. Die Kollektion kombiniert hochwertige, robuste Materialien mit beschlagfreien, kratzfesten Gläsern und 100 % UV-Schutz, um bei jedem Wetter klare Sicht und maximalen Augenschutz zu gewährleisten. Mit ihrem schlanken und ergonomischen Design passen die MAGNETRON-Goggles bequem mit oder ohne Helm und sind die ideale Wahl für alle, die Wert auf Leistung und Stil auf der Piste legen.

La technologie MAGNETRON de Red Bull SPECT Eyewear offre un système de changement d'écran rapide et intuitif, idéal pour les athlètes et les passionnés de plein air. Grâce à de puissants aimants intégrés dans la monture, les écrans peuvent être remplacés en quelques secondes, sans enlever les gants. Cela permet une adaptation rapide aux changements de luminosité en montagne. La collection combine des matériaux de haute qualité et robustes avec des écrans anti-buée, résistants aux rayures et offrant une protection UV à 100 %, garantissant une vision claire et une protection maximale des yeux par tous les temps. Avec leur design élégant et ergonomique, les masques MAGNETRON s'adaptent confortablement avec ou sans casque et sont le choix idéal pour ceux qui attachent de l'importance à la performance et au style sur les pistes.

The CLASSIC Collection by Red Bull SPECT Eyewear combines proven technology with timeless design. All models feature dual lenses and durable PC lenses, providing excellent clarity and protection. Many models are compatible with a prescription clip-in or can be worn over eyeglasses. Integrated F°SCAPE technology ensures outstanding anti-fog and scratch resistance, even in extreme conditions. Some models, marked with CHROM°X, feature photochromic lenses that automatically adjust to changing light conditions. The CLASSIC Collection offers superior functionality and comfort, enhancing every winter experience.

Die CLASSIC Collection von Red Bull SPECT Eyewear kombiniert bewährte Technologie mit zeitlosem Design. Alle Modelle sind mit einer doppelten Linse und robusten PC-Linsen ausgestattet, die für herausragende Klarheit und Schutz sorgen. Viele Modelle sind mit einem verglasbaren Clip-in kompatibel oder lassen sich über einer Sehbrille tragen. Die F°SCAPE-Technologie, die in allen Modellen integriert ist, gewährleistet exzellente Beschlag- und Kratzfestigkeit, selbst unter extremen Bedingungen. Einige Modelle, gekennzeichnet mit CHROM°X, bieten photochromische Gläser, die sich automatisch an wechselnde Lichtverhältnisse anpassen. Die CLASSIC Collection bietet höchste Funktionalität und Komfort und bereichert jedes Wintererlebnis.

La collection CLASSIC de Red Bull SPECT Eyewear allie technologie éprouvée et design intemporel. Tous les modèles sont équipés de double écrans en PC résistant, offrant une clarté et une protection optimales. De nombreux modèles sont compatibles avec un clip-in correcteur de vue ou peuvent être portés par-dessus des lunettes de vue. La technologie F°SCAPE, intégrée dans tous les modèles, garantit une excellente résistance à la buée et aux rayures, même dans des conditions extrêmes. Certains modèles, marqués CHROM°X, disposent d'écrans photochromiques qui s'ajustent automatiquement aux variations de luminosité. La collection CLASSIC offre ainsi une fonctionnalité et un confort supérieurs, enrichissant chaque expérience hivernale.
